

# Moab

## Why do I see Moab logs full of "No QueueTime has been specified for job"?

### Issue:

Moab logs are saying that several jobs have "No QueueTime has been specified for job"

### Symptom:

I'm seeing several log errors in Moab like:

```
2015-08-10T09:47:09.708-0400 23496 WARN MRMJobLoad.c:MRMJobPostLoad:332
0x1100a918 job:16571625 No QueueTime has been specified for job.
```

### Solution:

The message is saying there isn't a submit-time and has nothing to do with job walltime. Starting in 8.1.2 these messages have been moved to INFO rather than WARN messages.

Unique solution ID: #1055
