

Moab

Why do Moab client commands timeout even with UIMANAGEMENTPOLICY and CLIENTUIPORT set?

Issue: Moab client commands sometimes report timeouts even with UIMANAGEMENTPOLICY and CLIENTUIPORT set.

Symptom:

ERROR: client timed out after 60 seconds (hostname:port=moab:42559)

Solution:

Consider checking the moab.cg on the submithost or host where the client commands are being run from. In cases where you have UIMANAGEMENTPOLICY and CLIENTUIPORT set on the server but not the submithost you will see these timeouts.

Unique solution ID: #1051
